USER EXPERIENCE DESIGNER

Motivated by creativity, collaboration and design

I am a creative thinker, and a problem solver who loves to listen intently, connect with users and create better products and experiences. Collaborative projects light me up! I enjoy working on a team towards a mutual end goal and advocating for the users' needs to be met with functional design. My unique qualities span a mix of both right and left brained capabilities. I am logical, with a background in software and business. I've worked as a project manager, technical support engineer, a technical writer, and as a web administrator. I'm also artistic and creative; I've worked in graphic, web and UX design and as a studio artist. As a UX designer, I strive to leverage my technical, creative and communication skills and apply design process to deliver real results.

★ WORK EXPERIENCE

- Navicet**
May 2015 - Contract
USER EXPERIENCE DESIGNER
Successfully delivered a mobile design of KIWI, a team engagement metrics tool, to be used for the pilot project test scheduled Dec 2015.

Microsoft
Feb 2011- Nov 2012

Web Content Creation and Management

Led the content migration and web copy creation for a public facing SharePoint Internet site, wherein four different websites controlled by eight separate departments were combined into one main site.

- During the migration; re-wrote copy to maintain a consistent voice, fixed broken links and manipulated images as necessary;
- Performed knowledge transfer on the use of SharePoint web templates for use on a SharePoint public facing internet site;

Participated in the development and implementation of:

- The to-partner value messaging for SharePoint 2010 framed for specific audiences including WPC and SharePoint 2010 conference;
- The SharePoint Deployment Planning Services content including to partner and to customer marketing materials, web copy, deployment evidence and partner/ customer testimonials and evidence;
- The content for Solution Designer training an online SharePoint 2010 course targeted at Business Analysts;
- The partner sales guides for SharePoint and Exchange Planning Services;

Kick Asthma
2000-2008

FOUNDER, KICK ASTHMA®

The Buteyko Method is an effective, alternative breathing therapy for asthma, sleep apnea, chronic hyperventilation, panic attacks and sports training. As the first U.S. practitioner, I introduced the method to the U.S. and the Seattle area.

- Authored and produced *Kick Asthma® Naturally*, a home education kit, which includes a book, booklet and a professionally directed and produced 56-minute video, sold via the KickAsthma.com e-commerce site;
- Designed, organized, publicized and led training seminars and introductory workshops for physicians, naturopaths, health care professionals and clients;
- Planned and executed successful tradeshow booths at Northwest Women's show and various IT tradeshow;
- Designed and implemented a four-week international health accreditation program to certify other instructors;

Wilson WindowWare
1997-2002

GRAPHIC DESIGNER / WEB DESIGN AND ADMINISTRATION

- Redesigned company web site and on-line documentation of over 200 pages;
- Created original illustrations and animations for web navigation, web-based learning activities and on-line banner campaigns;
- Redesigned product packaging, printed promotional materials, identity pieces and the web site in order to integrate company collateral and messaging;
- Prepared digital print files and performed press checks for all company print materials including: advertising, brochures, CD design, packaging, boxes, book covers and trade show booth and displays;
- Planned, developed and implemented internet marketing strategies; SEO optimization, Google AdWords campaign, affiliates and link exchanges;

Sabbatical, Studio Art
Program France 1997

Wilson WindowWare
1994-1996

TECHNICAL SUPPORT ENGINEER / TECHNICAL WRITING

- Supported engineers using WinBatch, a Windows batch programming language;
- Authored technical documentation, white papers, help files and software manuals;
